

COMMUNITY CONVERSATIONS

SHARE YOUR VOICE SHAPE THE HEALTH OF SOMERSET AND PULASKI COUNTY

TALK DIRECTLY WITH RESEARCHERS FROM THE UNIVERSITY OF KENTUCKY MARKEY CANCER CENTER

Somerset Community College (SCC) welcomes Drs. Robin Vanderpool and John D’Orazio, from the University of Kentucky Markey Cancer Center, to campus for Community Conversations. This event is designed to share ideas that improve our community’s cancer burden and give local residents an opportunity to engage with experts in cancer research and community health.

Community Conversations is **FREE** to attend and includes lunch with registration.

As educators, SCC supports building a culture of health that starts with all of us. Communities solve problems by working together! Please join us as we listen to our community’s cancer health concerns and brainstorm ways to help prevent cancers such as melanoma and those caused by HPV.
